

a3 8. (Amended) An insulating film for an organic EL display element, formed from the radiation sensitive resin composition of claim 1.

Please cancel Claims 5, 9 and 10.

Please add new Claims 11-23 as follows:

11. (New) An insulating film for an organic EL display element, formed from the radiation sensitive resin composition of Claim 6.

a4 12. (New) A method for producing an insulating film for an organic EL display element, comprising applying the composition of Claim 1 to a surface.

13. (New) A method for producing an insulating film for an organic EL display element, comprising applying the composition of Claim 6 to a surface.

14. (New) An organic EL display element comprising an insulating film formed from the composition of Claim 1.

15. (New) An organic EL display element comprising an insulating film formed from the composition of Claim 6.

16. (New) An organic EL display element comprising an insulating film formed from a composition comprising an alkali-soluble resin having no epoxy group and a 1, 2-quinonediazide compound.

17. (New) The composition of Claim 1, comprising a melamine compound.

18. (New) The composition of Claim 1, comprising an epoxy compound.

af 19. (New) The composition of Claim 17, wherein said 1,2-quinonediazide compound is selected from the group consisting of a 1,2-benzoquinonediazidesulfonic acid ester, 1,2-naphthoquinonediazidesulfonic acid ester, 1,2-benzoquinonediazidesulfonamide, and 1,2-naphthoquinonediazidesulfonamide.

20. (New) The composition of Claim 18, wherein said 1,2-quinonediazide compound is selected from the group consisting of a 1,2-benzoquinonediazidesulfonic acid ester, 1,2-naphthoquinonediazidesulfonic acid ester, 1,2-benzoquinonediazidesulfonamide, and 1,2-naphthoquinonediazidesulfonamide.

21. (New) An organic EL display element comprising an insulating film formed from the composition of Claim 19.

22. (New) An organic EL display element comprising an insulating film formed from the composition of Claim 20.

23. (New) The composition of Claim 6, wherein said 1,2-quinonediazide compound is selected from the group consisting of a 1,2-benzoquinonediazidesulfonic acid ester, 1,2-naphthoquinonediazidesulfonic acid ester, 1,2-benzoquinonediazidesulfonamide, and 1,2-naphthoquinonediazidesulfonamide.
